The image shows a long, elegant lounge area on a yacht. The floor is covered with a large, intricate geometric patterned rug. On the left, a row of modern, light-colored armchairs is arranged. On the right, there is a large, low-profile sofa with patterned cushions, accompanied by a matching armchair. A glass coffee table sits in front of the sofa. The background features a wall of dark wood paneling and a large, multi-tiered chandelier made of numerous small, glowing, faceted glass pieces. The overall atmosphere is sophisticated and high-end.

[THE FOUNDER]

FROM SHIPS TO YACHTS

Fincantieri taught me on-board discipline.
Yachts taught me furniture excellence.

After the world of ships I rebuilt everything on yachts: joinery school, furniture assembly, the Admiral, Azimut and Yacht Line yards.

Starting from the bottom as a worker and having grown through every stage of the shipyard, today Faber Nautica has the skills to manage **major commissions with total responsibility.**
